In early 2004, PCC Network Solutions was selected by the Riverside County Information Technology (IT) Department as a pre-approved structured cabling contractor to provide cabling services support for the County. The selection of PCC Network Solutions over several others was based on an RFP that awarded points based on experience, longevity, commitment to industry standards and many other factors. The contract provides for work in various county affiliated organizations including Social Services, District Attorneys, Public Safety entities, County Health agencies and more. Based on the success of the first three year contract, PCC Network Solutions was awarded, in February, 2007, a new five-year contract with Riverside County.

PCC has multiple teams of technicians on site at the County every day conducting various certified structured cabling projects including Cat5e, Cat6 and coax horizontal cabling, copper/fiber backbone cabling, Outside plant, paging systems, and a variety of other specialized low-voltage installation projects.

By utilizing our large group of BICSI certified technicians in Southern California, PCC is able to manage and support multiple large scale projects simultaneously for the County. Our unique ability to scale our work force to support the County's dynamic project requirements has allowed us to almost double our contract revenue every year. In 2006, PCC supported over twelve major projects exceeding \$800,000 in revenue. In 2007, PCC is well on track to exceed \$1.6 million in revenue with the County.

### **About Riverside County**

Riverside County, formed in 1893, is the fourth largest County in the state of California and stretches nearly 200 miles across, covering over 7,200 square miles of fertile river valleys, low deserts, mountains, foothills and rolling plains. Riverside County offers a growing job base, newly built designer homes and great schools and is one of the fastest growing Counties in California. Today, Riverside County is the fourth largest county in California. The County of Riverside maintains a workforce of over 18,000 employees, in over 50 departments and agencies.
